Tongass National Forest- Chatham Area

NOT: Names shown on map in this map have not been approved by the U.S. Forest Service and are shown only as an aid to orientation by the user.

Alternative D
The purpose of this alternative is to distribute new timber harvest as evenly as possible throughout the 100,000-acre planning area for the purpose of maintaining the forest in a sustainable manner. This development activities and non-timber resources by providing spatial distribution between the harvest units.

* DPA: "A Harvest" is other appropriate prescriptions to maintain the forest in a sustainable manner. DPA: "A Harvest" is other appropriate prescriptions to maintain the forest in a sustainable manner. DPA: "A Harvest" is other appropriate prescriptions to maintain the forest in a sustainable manner.
